

Publications

Books

[Experiments: Planning, Analysis, and Optimization](#)

by C. F. Jeff Wu and M. Hamada, 2nd Edition, Wiley, 2009

[A Modern Theory of Factorial Design](#)

by Rahul Mukerjee and C. F. Jeff Wu, Springer, 2006

PUBLICATIONS

(a) Refereed Papers

1. C. F. J. Wu (1973). A note on convergence rate of the strong law of large numbers. *Bulletin of the Institute of Mathematics, Academia Sinica*, **1**, 121–124.
2. C. F. J. Wu (1978). [Some algorithmic aspects of the theory of optimal designs](#). *Annals of Statistics*, **6**, 1286–1301.
3. C. F. J. Wu and H. P. Wynn (1978). [The convergence of general step-length algorithms for regular optimum design criteria](#). *Annals of Statistics*, **6**, 1273–1285.
4. C. F. J. Wu (1978). [Some iterative procedures for generating nonsingular optimal designs](#). *Communications in Statistics, Series A*, **7**, Special Issue on Optimal Design Theory, 1399–1412.
5. C. F. J. Wu (1980). [Characterizing the consistent directions of least squares estimates](#). *Annals of Statistics*, **8**, 789–801.
6. C. F. J. Wu (1980). [On some ordering properties of the generalized inverses of nonnegative definite matrices](#). *Linear Algebra and its Applications*, **32**, 49–60.
7. C. S. Cheng and C. F. J. Wu (1981). [Balanced repeated measurements designs](#). *Annals of Statistics*, **8**, 1272–1283. (Correction, 1983, Volume 11, 349).
8. C. F. J. Wu (1981). [Iterative construction of nearly balanced assignments I: categorical covariates](#). *Technometrics*, **23**, 37–44.
9. A. J. Scott and C. F. J. Wu (1981). [On the asymptotic distributions of ratio and regression estimators](#). *Journal of the American Statistical Association*, **76**, 98–102.
10. R. Bohrer, W. Chow, R. Faith, V. M. Joshi and C. F. J. Wu (1981). [Multiple decision rules for factorial simple effects: Bonferroni wins again!](#) *Journal of the American Statistical Association*, **76**, 119–124.

11. C. F. J. Wu (1981). [Asymptotic theory of nonlinear least squares estimation](#). *Annals of Statistics*, **9**, 501–513.
12. C. S. Cheng and C. F. J. Wu (1981). [Nearly balanced incomplete block designs](#). *Biometrika*, **68**, 493–500.
13. C. F. J. Wu (1981). [On the robustness and efficiency of some randomized designs](#). *Annals of Statistics*, **9**, 1168–1177.
14. C. F. J. Wu (1982). [Estimation of variance of the ratio estimator](#). *Biometrika*, **69**, 183–189.
15. C. F. J. Wu (1982). Some algorithms for concave regression and isotonic regression. *TIMS Studies in the Management Sciences*, **19**, (Optimization in Statistics) 105–116, North Holland.
16. L. Y. Deng and C. F. J. Wu (1983). Estimation of variance of the ratio estimator: an empirical study. *Scientific Inference, Data Analysis, and Robustness* (G. E. P. Box et al., Ed.), 245–277, Academic Press.
17. C. F. J. Wu (1983). [On the convergence properties of the EM algorithm](#). *Annals of Statistics*, **11**, 95–103.
18. J. F. Soares and C. F. J. Wu (1983). [Some restricted randomization rules in sequential designs](#). *Communications in Statistics, Series A*, **12**, 2017–2034.
19. S. G. Wang and C. F. J. Wu (1983). [Further results on the consistent directions of least squares estimators](#). *Annals of Statistics*, **11**, 1257–1262.
20. C. Stepniak, S. G. Wang and C. F. J. Wu (1984). [Comparison of linear experiments with known covariances](#). *Annals of Statistics*, **12**, 358–365.
21. S. G. Wang and C. F. J. Wu (1984). Consistent directions of the least squares estimator in linear models. *Statistical Theory and Data Analysis* (K. Matusita, ed.), 763–782, North Holland.
22. C. F. J. Wu (1984). [Estimation in systematic sampling with supplementary observations](#). *Sankhyā, Series B*, **46**, 306–315.
23. J. F. Soares and C. F. J. Wu (1985). [Optimality of random allocation design for the control of accidental bias in sequential experiments](#). *Journal of Statistical Planning and Inference*, **11**, 81–87.
24. C. F. J. Wu (1985). [Variance estimation for the combined ratio and combined regression estimators](#). *Journal of the Royal Statistical Society, Series B*, **47**, 147–154.
25. Ping Cheng and C. F. J. Wu (1985). [Discussion of “Projection Pursuit” by P. J. Huber](#). *Annals of Statistics*, **13**, 490–493.
26. J. N. K. Rao and C. F. J. Wu (1985). [Inference from stratified samples: second order analysis of three methods for nonlinear statistics](#). *Journal of the American Statistical Association*, **80**, 620–630.
27. C. F. J. Wu (1985). [Efficient sequential designs with binary data](#). *Journal of the American Statistical Association*, **80**, 974–984.
28. T. Kariya and C. F. J. Wu (1985). [On the nonsingularity of principal submatrices of a random orthogonal matrix](#). *Journal of Statistical Planning and Inference*, **12**, 353–357.
29. C. F. J. Wu (1985). [Asymptotic inference from sequential design in a nonlinear situation](#). *Biometrika*, **72**, 553–558.
30. I. Ford, D. M. Titterton and C. F. J. Wu (1985). [Inference and sequential design](#). *Biometrika*, **72**, 545–551.
31. C. F. J. Wu (1986). Maximum likelihood recursion and stochastic approximation in sequential designs. *Adaptive Statistical Procedures and Related Topics* (J. Van Ryzin, ed.), IMS Monograph Series, **8**, 298–313.
32. S. K. Tse and C. F. J. Wu (1986). [Comparison of the dichotomous and polytomous response models](#). *Journal of Statistical Planning and Inference*, **14**, 187–202.
33. C. F. J. Wu (1986). [Jackknife, bootstrap and other resampling methods in regression analysis \(with discussion\)](#). *Annals of Statistics*, **14**, 1261–1350.
34. M. Hamada and C. F. J. Wu (1986). [Should accumulation analysis and related methods be used for industrial experiments? A discussion of “Testing in industrial experiments with ordered categorical data” by V. N. Nair](#). *Technometrics*, **28**, 302–306.
35. L. Y. Deng and C. F. J. Wu (1987). [Estimation of variance of the regression estimator](#). *Journal of the American Statistical Association*, **82**, 568–576.
36. J. Shao and C. F. J. Wu (1987). [Heteroscedasticity–robustness of jackknife variance estimators in linear models](#). *Annals of Statistics*, **15**, 1563–1579.
37. G. Box, R. Kacker, V. Nair, M. Phadke, A. Shoemaker and C. F. J. Wu (1988). [Quality practice in Japan](#). *Quality Progress*, 37–41.

38. C. F. J. Wu, D. Holt and D. Holmes (1988). [On the effect of two-stage sampling on the \$F\$ statistic.](#) *Journal of the American Statistical Association*, **83**, 150–159.
